
International Journal of
Project Management

Index to Volume 3: 1985

Author

Abdel Salam, M E Client viewpoint on foreign contracts 183
Angling, M Assessing the relative priority of projects 114
Arditi, D, Tarim Akan, G and Gurdamar, S Cost overruns in public projects 218
Bishop, K A and Gembey R B Managing information flow on a megaproject 39
Campbell, J Project management and the civil engineer 234
Chapman, C B, Phillips, E D, Cooper, D F and Lightfoot, L Selecting an approach to project time and cost planning 19
Cooper, D F, MacDonald, D H and Chapman, C B Risk analysis of a construction cost estimate 141
Cullen, J D and Nankervis, C W Overcoming the Luddite factor: some behavioural aspects of the field supervisor's role in construction planning 133
Cusack, M Optimization of time and cost 50
Dingle, J Project feasibility and manageability 94
Gabriel, E Access and the project manager 231
Habison, R Time and cost securing in complex large-scale projects 178
Harhalakis, G Objective evaluation of non-storable resource-scheduling profiles 199
Hutcheson, J Financial management of housing contracts 153
Jeffery, P Project managers and major projects 225
Laufer, A and Tenah, K A Introducing management information systems in medium-sized construction companies 169
Nurminen, T Finnish general contracting in the USSR 163
Orpen, C Correlates of job satisfaction and performance among project engineers 240
Palmer, C Planning of rural development centres in Pakistan 73
Palmer, C Project to develop school education services in Delhi, India 208
Pannenbacker, K Implementation of project management systems 81
Riis, J O Initiating industrial projects 68
Ringström, H Managers as guiding instructors 110
Seiler, J Cost and schedule data analysis and forecasting 45
Selim, T M Development of the construction industry in Egypt 27
Tiner, W D Subdivision of work on construction projects 13
Trimble, G and France, K Software portability for microcomputers 6
Uher, T E and Runeson, G Subcontractor–general contractor relationship in Australian building industry 35
Wearne, S H Development of project engineers 150
Wearne, S H Matrix management or internal contracts? 55
Wood, K Plant project coding and information management 246
Woodward, J Civil engineering management 105

Title

Access and the project manager **Gabriel, E** 231
Assessing the relative priority of projects **Angling, M** 114
Civil engineering management **Woodward, J** 105
Client viewpoint on foreign contracts **Abdel Salam, M E** 183
Correlates of job satisfaction and performance among project engineers **Orpen, C** 240
Cost and schedule data analysis and forecasting **Seiler, J** 45
Cost overruns in public projects **Arditi, D, Tarim Akan, G and Gurdamar, S** 218
Development of project engineers **Wearne, S H** 150
Development of the construction industry in Egypt **Selim, T M** 27
Financial management of housing contracts **Hutcheson, J** 153
Finnish general contracting in the USSR **Nurminen, T** 163
Implementation of project management systems **Pannenbäcker, K** 81
Initiating industrial projects **Riis, J O** 68
Introducing management information systems in medium-sized construction companies **Laufer, A and Tenah, K A** 169
Managers as guiding instructors **Ringström, H** 110
Managing information flow on a mega-project **Bishop, K A and Gembey, R B** 39
Matrix management or internal contracts? **Wearne, S H** 55
Objective evaluation of nonstorable resource-scheduling profiles **Harhalakis, G** 199
Optimization of time and cost **Cusack, M** 50
Overcoming the Luddite factor: some behavioural aspects of the field supervisor's role in construction planning **Cullen, J D and Nankervis, C W** 133
Planning of rural development centres in Pakistan **Palmer, C** 73
Plant project coding and information management **Wood, K** 246
Project feasibility and manageability **Dingle, J** 94
Project management and the civil engineer **Campbell, J** 234
Project managers and major projects **Jeffery, P** 225
Project to develop school education services in Delhi, India **Palmer, C** 208
Risk analysis of a construction cost estimate **Cooper, D F, MacDonald, D H and Chapman, C B** 141
Selecting an approach to project time and cost planning **Chapman, C B, Phillips, E D, Cooper, D F and Lightfoot, L** 19
Software portability for microcomputers **Trimble, G and France, K** 6
Subcontractor–general contractor relationship in Australian building industry **Uher, T E and Runeson, G** 35
Subdivision of work on construction projects **Tiner, W D** 13
Time and cost securing in complex large-scale projects **Habison, R** 178
